

TEA4 SENIORS

TEACHING DIGITAL COMPETENCIES TO LOW-SKILLED OR LOW-QUALIFIED SENIOR CITIZENS THROUGH ANALOGIES

What we have now in Europe

44% of the EU population have insufficient digital skills

Seniors in Europe*

22% use internet for banking

25% read newspapers online

23% make online purchases

10% participate in social media

**according to Eurostat 2014*

The aim of TEA 4 SENIORS is to foster digital literacy and understanding of the digital world among senior citizens and their educators through an innovative methodology based on gamification and analogies.

So, they can improve their capacity to communicate, share, interact, learn and access to up-to-date information in today's digital world by using ICT devices and internet.

flip the page!

We believe that

Regardless of the age, any person should perceive internet as a simple tool for everyday activities.

We believe that

Everyone should be aware of the digital world and its opportunities and risks.

We believe that

Digital autonomy is the base of self-esteem of seniors to be engaged in society.

What we want to create:

- A framework in analogies and gamification for digital education of seniors
- An engaging learning methodology concerning digital competences for educators and experts
- A Tea-game e-learning platform with specific content and materials for seniors in digital education
- A transparent recognition system of digital competencies with the usage of Open Badges
- A handbook for adult educators as supportive tool for their everyday work full of tools, resources, links and good practices.

TEA 4 SENIORS IS A TWO-YEAR PROJECT [2018-2020] CO-FUNDED BY ERASMUS PLUS PROGRAMME OF EUROPEAN UNION AND IT WILL INVOLVE PROFESSIONAL ADULT EDUCATORS WORKING WITH SENIORS.
